

## Temperature Logger

## Flight Mode

## Simple Mounting

Flexible sticker  
format

**6** months  
measurement  
interval –  
**1** hour

# Logger T

## Sensors

### Temperature

Operating range: - 30 °C to 50 °C

Accuracy:

±0,5 °C (-10 °C to ±50 °C)

±1 °C for other temperatures

## Battery

40 mAh non-rechargeable manganese dioxide battery

4.800 measurements memory

Lasts 6 months on 1-hour measurement interval

## Transmission Type

Non-transmitting, depends on the RFID/NFC reading device

Smartphone reading, Tag reader, Tag gate

## Mounting

Simple free mounting due to self-adhesive backside

## Dimensions

95 x 125 x 1 mm

## Weight

5 g

## IP Rating

67

## Certifications & Approvals

CE, RTCA DO-160G
